General Boat Description

Introducing this magnificent 1985 CHB ACMY Aft Cabin Motor Yacht—a beautifully maintained 47.7-foot trawler that combines timeless craftsmanship, exceptional comfort, and proven reliability. Built on a solid fiberglass modified-V hull, she delivers a remarkably stable and confident ride, whether you're cruising the coast, entertaining friends, or embarking on extended voyages.

Powered by twin Caterpillar 3208 diesel inboard engines producing 375 horsepower each, she cruises comfortably at approximately 16 knots. The engines have been recently serviced, and every major system aboard is in excellent working order. This is a turnkey vessel that has been meticulously cared for, allowing her next owner to step aboard and cruise with confidence from day one.

The yacht features two spacious staterooms and two full heads, providing comfortable accommodations for family and guests. An electric windlass makes anchoring effortless, while the thoughtfully designed aft cabin layout offers generous living space rarely found in yachts of this size.

Significant upgrades include the complete replacement of the original lead-acid batteries with modern lithium batteries, providing greater reliability, longer service life, reduced maintenance, and improved onboard power management.

This CHB is far more than simply a capable cruising yacht—it is a truly magnificent vessel that has been lovingly maintained and thoughtfully upgraded. Combining classic styling, robust Caterpillar power, modern electrical improvements, and exceptional mechanical condition, she represents a rare opportunity to own one of the finest examples of this respected model currently available
